

Helena

The timeless design of the Medeco® Helena mortise lock, crafted from solid brass, is finished to an unmatched luster to fit the décor of any home. The mortise case is built with meticulous attention to detail, featuring a 1" hardened steel bolt for physical security. For protection against unauthorized duplication of keys, this handleset is secured by a BHMA A156.30 Certified cylinder. The Medeco Helena will add value to any entrance and provide a lifetime of uncompromising beauty and security.

The Perfect First Impression

The solid brass Helena handleset will grace any entrance with its unmatched beauty and robust construction. Available in a variety of finishes and functions, it will please the most discriminating homeowner.

Unmatched Security

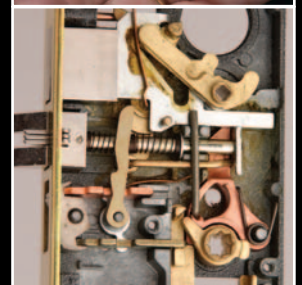

The Helena handleset provides superior security to any home with a lock case that utilizes many components found in commercial grade mortise locks. The deadbolt is a solid, hardened steel bolt with over 1" of throw. The heart of this lock is the UL437 Listed cylinder which provides unmatched protection against unauthorized key duplication, picking and drilling.

Control Over Your Keys

The Helena mortise lockset cylinder carries a BHMA A156.30 Certification, giving you assurance that your keys are fully protected from unauthorized duplication as well as a UL437 Listing for protection against picking and drilling attacks. With this protection, you are assured of knowing exactly who has access to your possessions and loved ones. The Helena, like all Medeco Residential locks, can be masterkeyed for maximum flexibility.

Uncompromising Quality

The high-grade interior components of the mortise lock are designed for maximum security and longevity. Their solid steel and brass construction are guaranteed to provide a lifetime of smooth and reliable operation.

Specifications:

Solid brass construction

Triple locking action makes lock virtually pickproof

Hardened steel inserts in cylinder provide resistance to drilling

1" throw hardened steel deadbolt resists sawing attack

Reinforced strike for maximum resistance to kicking

Recessed cylinder provides protection against wrenching

Solid brass and steel internal mortise case components ensure a lifetime of reliable operation

Helena Mortise Handleset

Description	Backset	Part Number
Single Cylinder Handleset with knob	2-1/2"	RLX061300-XX
Single Cylinder Handleset with lever	2-1/2"	RLX0613X0-XX
Double Cylinder Handleset with knob	2-1/2"	RLX062300-XX
Double Cylinder Handleset with lever	2-1/2"	RLX0623X0-XX
Single Cylinder Handleset with knob	2-3/4"	RLX061400-XX
Single Cylinder Handleset with lever	2-3/4"	RLX0614X0-XX
Double Cylinder Handleset with knob	2-3/4"	RLX062400-XX
Double Cylinder Handleset with lever	2-3/4"	RLX0624X0-XX

* Use "L" or "R" to indicate handing in place of the first "X" in the part number

Keying Information:

Keyways: Medeco[®] Standard. (Also available in Original or Biaxial[®] Keyways.)

Keying: keyed different, keyed alike, construction keyed, or masterkeyed.

Number of pins: 5 or 6 Pin cylinder

Lock Function:

Single Cylinder: ANSI F12 Function. Latches by interior knob or exterior thumbpress – unless outside thumbpress is locked by stopbutton or projected deadbolt. Deadbolt operates by turning thumbturn inside or by operation of the knob or by use of the key from the exterior (deadbolt retracted simultaneously with latch).

Double Cylinder: ANSI F11 Function. Same functionality as described for single cylinder except that the key replaces the interior thumbturn.

Handing is field reversible.

Finishes:

5E PVD Anti-tarnish Brass

19 Satin Nickel

10 Oil Rubbed Bronze
